

Documentation and evaluation

04.-05.09.2017

Conference in Copenhagen, Denmark

Documentation and evaluation

Important points

Context

Most countries focus on results and quality. Oftentimes some type of documentation is needed if Blue Cross units are to be eligible for public or private financial support. Blue Cross as a whole has plenty of experience when it comes to measures of evaluation as well as result documentation. At this conference, we wish to focus on this pool of experience and try to learn from each other. Blue Cross Denmark will present their experiences. Presentations, specific experiences and tools from other participating countries are welcome to be included.

Schedule

The conference will take place on **4.-5.9.2017**. On the 6.9.2017 a special programme will be provided by BC Denmark. Please find below the outline for the conference.

Organisation

Conference place:

Park inn by Radisson, Engvej 171, 2300 København (www.parkinn.com/hotel-copenhagen)
